Unparalleled legacy

From Harvard to Knowledge Park.

The Science – Harvard Medical School Affiliate Partnership

CTI is partnered with The Institute of Coaching at McLean Hospital — an affiliate of Harvard Medical School — to bring the practice of coaching together with the peer-reviewed science that supports its efficacy. As a CTI student or graduate, you gain discounted access to the Institute's global coaching community (ICPA) and to ongoing coaching research.

Never a dull moment in our legendary Magic Room.

The CTI trainings are highly experiential. You will never see a single screen during the program and instead our curriculum allows every participant to learn through experiences instead of tedious lectures.

CTI was the first ever school to be accredited by the ICF worldwide
